

QGIS Application - Feature request #5476  
Autoselect gid as view primary coloums

2012-04-23 01:37 PM - Luca Lanteri

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:		
Pull Request or Patch supplied:		Resolution: worksforme
Easy fix?:	No	Copied to github as #: 15100
Description		
<p>When I load a new postgis view in Qgis 1.9 with more than one primary column I have to choose which is the correct one by a combo box.</p> <p>Now if there is more than one candidate there isn't a column proposed by default.</p> <p>Is it possible to have the gid column selected by default in the combobox if it exists ?</p> <p>It should be a simple improvement that can simplify to load a view.</p>		

History

#1 - 2012-04-23 01:48 PM - Jürgen Fischer

- Status changed from Open to Feedback

sounds arbitrary - what qualifies gid over the other candidates?

#2 - 2012-06-16 02:55 AM - Jürgen Fischer

- Resolution set to worksforme

- Status changed from Feedback to Closed

closing for the lack of feedback.
