<b>Assignee:</b>	
<b>Category:</b> Browser	
<b>Pull Request or Patch Supplied:</b>	<b>Resolution:</b> fixed/implemented
<b>Easy fix?:</b> No	<b>Copied to github as #:</b> 15176
<b>Description</b>	
subject say it all	

### History

#### #1 - 2012-10-06 02:19 AM - Pirmin Kalberer

- Target version changed from Version 2.0.0 to Future Release - Nice to have

#### #2 - 2012-11-14 01:07 AM - Regis Haubourg

Recent feature request #6685, #6686, #6685 made me think that when qgs will be supported in browser, some right clic options would be useful:

- 1- open projet (quit existing one)
- 2- append to project
- 3- add layers and groups from project (open actual dialog from layer menu)

Does it need a separate ticket?

#### #3 - 2015-12-10 09:18 PM - Nathan Woodrow

- Resolution set to fixed/implemented
- Status changed from Open to Closed

Added to master now. commit:ffd7c9436fb2888b8e5ada52968d231f49173876
