I add some database related fixes. Unfortunately, currently I have no access to PostGIS DB and can't test. Please check if problem still exists after commit:f998a44a31

I'm also seeing a hang trying to run Symmetric Difference or Union on two Vector layers in a regular project, no PostGIS involved. (that I know of, anyhow; I'm new to QGIS)

OSX 10.7, QGIS 1.7.4

- Status changed from Open to Closed

- Resolution set to fixed

Just tested using attached sample data with PostGIS and SpatiaLite: both tools works. Please reopen if necessary
