- Status changed from Open to Feedback

Hi Salvatore, I can quite understand well the sequence to try replicate the issue. Can you confirm it with the latest builds? it is a regression since 1.7.4?

#2 - 2012-05-30 01:23 PM - Salvatore Larosa

I confirm, it is a regression since 1.7.4!

Also the last build is affected!

#3 - 2012-05-30 01:29 PM - Giovanni Manghi

- Priority changed from High to Severe/Regression

Since it is a regression is then a blocker. Anyway I still don't understand clearly the steps to replicate the issue.

I suppose you mean that the window should stay open, when you "cancel" the save. What happens is that the project isn't saved, but the application is still closed - but there's no crash.

At least not here. Did you try without any plugins?

Now in cbd88ee I haven't segfault!

but I remember that also Macho, on IRC, confirmed this issue!
