| Description | | |
| <p>It seems QGIS' offline editing tool does not work with other data-sources than postgresql (http://osgeo-org.1560.n6.nabble.com/Offline-editing-amp-Database-tables-td4977203.html)</p> <p>It would be very useful to have offline (sqlite) storage for other data-types (not geographical, ie. attribute tables) and other data-sources (MySQL).</p> | | |
