

QGIS Application - Feature request #5727

OWS metadata URL

2012-06-03 04:43 PM - Brent Wood

<b>Description</b>		
<p>Earlier versions of QGIS had the (very useful for me) full getfeature URL listed in the metadata for WMS/WFS layers.</p> <p>This was a very useful bit of text to paste into a browser to either get a WMS image, or to help debug the underlying WMS/WFS service.</p> <p>Recent versions of QGIS no longer provide the full GetMap/GetFeature URL, at least not that I can see. It is somewhat painful to handcraft the full URL with all parameters.</p> <p>Is it possible to restore this item to the metadata list for OWS layers in future versions?</p>		

History

- #1 - 2012-09-04 12:09 PM - Paolo Cavallini
- Target version set to Version 2.0.0
- #2 - 2012-10-06 02:19 AM - Pirmin Kalberer
- Target version changed from Version 2.0.0 to Future Release - Nice to have
- #3 - 2015-10-04 08:53 PM - Brent Wood
- May have some funding available
- #4 - 2017-05-01 12:48 AM - Giovanni Manghi
- Easy fix? set to No
