

QGIS Application - Bug report #5751

Quoted Lat/Long fails in Add Delimited Text Layer

2012-06-06 09:40 AM - Tac Tacelosky

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:		
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 15257
Description		
<p>Although unnecessary, sometimes CSV files contain quoted lat/long, and the file won't load as a Delimited Text Layer:</p> <pre>"STORE_NAME","longitude","latitude","ADDRESS","CITY","STATE","ZIP5","zip4" "OBENG INTERNATIONAL WHOLESALE",-77.00175874,"38.90870803","300 MORSE ST NE","WASHINGTON","DC","20002","" "DAILY FISH OF CHESAPEAKE",-77.02539292,"38.92012942","2250 Sherman Ave NW","Washington","DC","20001","4004" "Shipley Supermarket, Inc",-76.97122527,"38.84796227","2283 Savannah St SE","Washington","DC","20020","7557"</pre> <p>This is related to Issue #4091, a quoted string with a comma is being improperly parsed.</p> <p>http://easycaptures.com/fs/uploaded/558/2969295440.png</p> <p>The current solution is to remove the quotes around the lat and long values.</p>		

History

#1 - 2012-09-04 12:06 PM - Paolo Cavallini

- Target version set to Version 2.0.0

#2 - 2013-04-15 05:43 PM - Chris Crook

- Status changed from Open to Closed

This is fixed in release 2.0. Committed fab2c57478f67be01a9ac91f0ce27a1f739d0501
