

# QGIS Application - Bug report #578

## Application quitting on adding data

2007-02-07 06:51 AM - jake-hewes-tpl-org -

<b>Status:</b> Closed	
<b>Priority:</b> Low	
<b>Assignee:</b> nobody -	
<b>Category:</b> Data Provider	
<b>Affected QGIS version:</b>	<b>Regression?:</b> No
<b>Operating System:</b> Windows	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	<b>Resolution:</b> fixed
<b>Crashes QGIS or corrupts data:</b>	<b>Copied to github as #:</b> 10637
<b>Description</b>	
<p>I recently loaded and installed QGIS on my work machine. Whenever I try to "add data" the application immediately quits - entirely disappears on me - without any message or acknowledgement thereof. I've tried removing and reinstalling the program 3 times with no change. I'm running Windows XP. Interestingly I tried installing the program on my home machine (also running XP) and had NO PROBLEMS - could add data and such. I've spoken with my network guru and he ran me through some trouble shooting avenues with no success. Any help would be greatly appreciated.</p> <p>Thanks, Jake Hewes</p>	

### History

Could it be faulty DLL:s?

Download <http://www.dependencywalker.com/> and try to run qgis through it. Please include all the loaded DLL:s (includnig full path to them), and any missing DLL:s

#### #2 - 2007-02-25 07:34 PM - Tim Sutton

Moved to milestone 0.8.2 since we wont be fixing any further issues before the 0.8.1 release

#### #3 - 2007-03-14 07:15 AM - Redmine Admin

This is probably because you do not have administrative rights on your PC when you install the software. I had this problem and resolved it by logging on with admin rights.

#### #4 - 2008-03-07 10:56 PM - Paolo Cavallini

The bug seems solved in 0.9.2. If it is not confirmed, please close it.

#### #5 - 2008-03-20 03:36 AM - leolami -

- Status changed from Open to Closed

- Resolution set to fixed

I close it. If you think it is still valid reopen it, please.
