Description

Adding a column takes more than a minute

Scenario:

1) Open attribute table

2) Add column (in my case a double(8,5))

Environment:

- QGIS version 1.8 or 1.7.4

- Windows 7 64 bit

confirmed here on Ubuntu. It seems that after adding the column it slowly reload all the features (slower than when opening the attribute table in first place).

- Priority changed from High to Normal

#3 - 2014-06-23 10:06 AM - Giovanni Manghi

- Status changed from Open to Closed

works fine on master.
