

QGIS Application - Bug report #5853

Raster: Global Transparency setting not stored/loaded correctly

2012-06-24 02:39 AM - Andreas Neumann

Status: Closed	
Priority: Normal	
Assignee: Marco Hugentobler	
Category: Rasters	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution:
Crashes QGIS or corrupts data:	Copied to github as #: 15321

Description

If one loads a raster, applies the global transparency saves the project, reloads it, the global transparency setting is not preserved.

There seems to be either a storage problem of this setting in the project file or a loading problem.
