

QGIS Application - Feature request #5857

Make QGIS support WCS layers as valid raster input layers

2012-06-25 12:52 AM - Giovanni Manghi

<b>Status:</b>	Open	<b>Resolution:</b> <b>Copied to github as #:</b> 15322

Hello, bug triage...

this should be fixed with the QGIS WCS client. I've just tested it on this server: <http://webmap.ornl.gov/ogcbroker/wcs> and it works !

Can you confirm ?

Hi, the WCS client works, is ok.

The request here is about another thing: once you have added a WCS layer to a project then make the tools that use raster layers as input also show the WCS as possible input. This is not the case in QGIS, at least until the last time I checked this request. cheers!
