QGIS Application - Bug report #5867
Bands not correctly loaded for multiband raster

2012-06-25 06:48 PM - Nathan Woodrow

Status:	Closed		
Priority:	High		
Assignee:	Marco Hugentobler		
Category:	Rasters		
Affected QGIS version:	master	**Regression?:**	No
Operating System:	Windows	**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	worksforme
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	15330

Description

Using the osgeo4w build 7cec992 when loading a normal multiband raster the red, green, and blue bands are not selected resulting in a empty image. You have to open the properties dialog and select them by hand.

History

#1 - 2012-06-25 11:59 PM - Marco Hugentobler

- Status changed from Open to Feedback

By default, band1 is taken as red, 2 as green, 3 as blue (configurable in options->display->raster).
Could you check if you have wrong settings for defaultRedBand/defaultGreenBand/defaultBlueBand? There was a bug a few days ago that inserted funny numbers into that setting.

#2 - 2012-10-04 02:31 PM - Giovanni Manghi

- Resolution set to worksforme

- Status changed from Feedback to Closed

I really can't see anything wrong with the latest master. Maybe it was a local issue or something that was fixed meanwhile. Please reopen if necessary.
