QGIS Application - Feature request #59
copy to clipboard support

2006-04-05 01:25 AM - Martin Dobias

Status:	Closed			
Priority:	Low			
Assignee:	Jürgen Fischer			
Category:	GUI			
Pull Request or Patch supplied:			**Resolution:**	fixed
Easy fix?:	No		**Copied to github as #:**	10118

Description

It would be nice to have in identify tool possibility to show point's x,y value with a
button underneath saying 'copy to clipboard'.

Note that as a workaround in the subversion head version, you can select the point in question and copy it - the clipboard will now contain the well-known
text for that point.

#3 - 2009-02-03 05:43 AM - Markus Neteler

I take liberty to reopen:

When querying a map with the identify tool, I have no clue how to copy field values from the tool. From a user's point of view: the best would be to permit
right-mouse-button-copy of a field. And/or, selected fields are copied to the clipboard.

Currently I am writing down the queried values manually...

- Resolution deleted (fixed)

- Status changed from Closed to Feedback

#5 - 2009-04-13 03:32 AM - Markus Neteler

May I ask to backport the copy to clipboard support to https://svn.osgeo.org/qgis/branches/Version-1_0

?

#6 - 2009-04-13 03:10 PM - Markus Neteler

Forgot to say that I meant to copy attribute field values from "identify" or the attribute table. Better to open a separate ticket?

#7 - 2009-07-15 12:03 PM - Giovanni Manghi

Replying to [comment:10 neteler]:

> *Forgot to say that I meant to copy attribute field values from "identify"*

+1

Now that we can copy attributes from the table or from selected features in the map canvas, it would be nice to have also a button in the identify dialog box or allow copying (in the identify dialog) with the right mouse button.

#8 - 2009-08-01 05:50 PM - Giovanni Manghi

works for me under Ubuntu 9.04

#9 - 2009-08-02 01:30 AM - Markus Neteler

Excellent: works both in https://svn.osgeo.org/qgis/branches/Version-1_0 and trunk (using Mandriva 64bit).

> *sure, but we entered feature freeze.*

Right, I forgot it. By the way, other patches have been applied after the ff call.

regards

#14 - 2009-08-04 01:15 AM - Markus Neteler

It would be sad to miss that in 1.2.0 (since it even works in 1.0.x). This is a key feature in daily GIS work.

Bugfix or feature patches?

#16 - 2009-08-04 01:28 AM - Giovanni Manghi

For what I see here

https://trac.osgeo.org/qgis/log/trunk

patches, but I may be wrong.

I meant bugfix patches or feature patches.

Anyway I applied it in commit:1bb9717e (SVN r11263) (Tim you didn't see this)

#18 - 2009-08-04 04:05 AM - Giovanni Manghi

> *I meant bugfix patches or feature patches.*

right. I get it right after my last reply. Sorry for that, I'm not yet really used to this terms as I'm new in the svn/development world. Sorry again.
