

QGIS Plugin Site - Bug report #5902

Wrong Author shown

2012-06-29 04:14 AM - Paolo Cavallini

Status:	Closed	
Priority:	High	
Assignee:	Alessandro Pasotti	
Category:		
Pull Request or Patch supplied:		
Description		
<p>The field "Maintainer" is used instead of the proper Author. This effectively removes proper credits to original author, so it may be annoying. Should be an easy fix.</p>		

History

#1 - 2012-06-29 04:17 AM - Giuseppe Sucameli

Look at <http://plugins.qgis.org/plugins/plugins.xml>,

it displays brush Tyler as ARPAT plugin's author instead of the proper one (the one in the metadata.txt)

#2 - 2012-06-30 10:48 AM - Alessandro Pasotti

IIRC this string modification was done to fix a ticket opened by you.

see: #4249

#3 - 2012-07-02 06:46 AM - Paolo Cavallini

We are talking here about the XML, particularly how displayed by the plugin installer inside QGIS.

#4 - 2012-07-26 02:40 AM - Paolo Cavallini

I think fixing this is important, because not giving proper credits to the authors of the plugin will make them upset. To me it looks an easy fix (just displaying a field in the plugin installer instead of another, but maybe I miss something).

#5 - 2012-10-05 03:41 AM - Alessandro Pasotti

- Status changed from Open to Resolved

Added author and email fields.

Documentation updated accordingly, please test and report.

#6 - 2012-10-05 03:41 AM - Alessandro Pasotti

- Assignee set to Alessandro Pasotti

#7 - 2012-10-05 07:20 AM - Paolo Cavallini

- Status changed from Resolved to Closed
