

QGIS Application - Bug report #594

Win32: Link gdal/ogr against postgresql in msys

2007-02-15 04:49 AM - stephan-holl-intevation-de -

Status: Closed	
Priority: Low	
Assignee: nobody -	
Category:	
Affected QGIS version:	Regression?: No
Operating System: Windows	Easy fix?: No
Pull Request or Patch supplied:	Resolution: fixed
Crashes QGIS or corrupts data:	Copied to github as #: 10653
Description	
<p>The Win32-Binary does not contain Postgresql-support for OGR. It would be nice to have this availabel, so that GRASS can export to [[PostGIS]] directly using v.out.ogr.</p> <p>Thankyou</p>

- Resolution set to fixed

- Status changed from Open to Closed

I have build gdal with pg support for the upcoming release of qgis 0.8.1. I will release a preview of the win build later tonight for testing. Please reopen this bug if the problem persists.

Regards

Tim
