

QGIS Application - Bug report #610
attribute table with asian letters on a german qgis 0.8-win xp-environment

2007-02-21 10:50 PM - hellik-web-de -

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	GUI	
Affected QGIS version:		Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed
Crashes QGIS or corrupts data:		Copied to github as #: 10669
Description		
<p>hi</p> <p>on a german win xp-machine (sp2) i've installed with the windows installer (german language selccted) qgis version 0.8 and the alaska-sample-dataset.</p> <p>if i open the attribute table from the shape-file (for example majrivers.shp), i can see only asian letters in the attribute table</p> <p>see http://www.alectoria.at/dl/qgis_alaskadata.png</p> <p>interestingly the same installing procedure on a german win 2000-machine, everything is ok.</p> <p>regards helli</p>

Can you test this issue with the preview release at : http://qgis.org/uploadfiles/testbuilds/qgis_setup0.8.1preview1.exe

#2 - 2007-03-01 10:21 AM - hellik-web-de -

hi,

i've tested it with http://qgis.org/uploadfiles/testbuilds/qgis_setup0.8.1preview1.exe.

everything is ok. in the attribute-table there are the right encoded letters.

see http://www.alectoria.at/dl/qgis_081_alaskadata.png

thanks!
helli

- Resolution set to fixed
- Status changed from Open to Closed

Hi

Great pleased to hear the prblem is corrected in the upcoming release.

I'm closing this bug - please re-open if the problem re-occurs.

Tim
