QGIS Application - Bug report #6109
Vector Grid should handle manual extent when no extent layer is given

2012-07-27 12:59 PM - Mikhail Titov

Status:	Closed		
Priority:	Normal		
Assignee:	Alexander Bruy		
Category:	Processing/QGIS		
Affected QGIS version:	master	**Regression?:**	
Operating System:		**Easy fix?:**	
Pull Request or Patch supplied:	Yes	**Resolution:**	fixed
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	15451

Description

How to reproduce:

1. Start QGIS with no project or layers
2. Go to Vector→ Research Tools→ Vector grid
3. set up extent manually and hit OK

You'll get

Traceback (most recent call last):
  File "C:\\OSGeo4W\\apps\\qgis\\python\\plugins\\fTools\\tools\\doVectorGrid.py", line 146, in accept
    self.compute(boundBox, xSpace, ySpace, polygon)
  File "C:\\OSGeo4W\\apps\\qgis\\python\\plugins\\fTools\\tools\\doVectorGrid.py", line 156, in compute
    crs = ftools_utils.getMapLayerByName(unicode(self.inShape.currentText())).crs()
AttributeError: 'NoneType' object has no attribute 'crs'

Expected

Create layer with default projection. For some reason I'm not getting default one in the patch attached. More work is needed.
