Affected QGIS version:	master	**Regression?:**	
Operating System:		**Easy fix?:**	
Pull Request or Patch supplied:	No	**Resolution:**	fixed
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	15475

Description

fTools crashes when trying to display the error message below:

File tools/doMergeShapes.py, line 130, in accept
 QMessageBox.warning(self, self.tr("Delete error"), self.tr("Can't delete file %1").arg(outFileName))
NameError: global name 'outFileName' is not defined

Very easy fix.
