Affected QGIS version:	1.8.0	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	duplicate	
Crashes QGIS or corrupts data:		**Copied to github as #:**	15519	

Description

Hello,

The behavior of the Delete button on the Categorized Style dialog is not complete. It doesn't delete the selection but only the last selected class. As a consequence, it is particulary boring to delete lots of classes, one by one and this behavior is far from natural.

You can see an example with the added png files: only the last selected class (PHAE.NOR) is deleted when you clic on the delete button.

History

#1 - 2012-08-16 03:29 AM - Giovanni Manghi

- Resolution set to duplicate

- Status changed from Open to Closed

Duplicate of #5611
