

QGIS Application - Bug report #6207

SVG fill file navigation bug

2012-08-16 05:49 AM - Jonathan Moules

<b>Status:</b>	Closed	
<b>Priority:</b>	Normal	
<b>Assignee:</b>		
<b>Category:</b>		
<b>Affected QGIS version:</b>	master	<b>Regression?:</b> No
<b>Operating System:</b>		<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> duplicate
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 15520
<b>Description</b>		
<p>If I go to "SVG fill", and click the "...", up pops a dialog for me to navigate to a file. I do this, click ok. Fine. However if I then open this dialog again its back to the default location (\\quantum GIS Lisboa\\), rather than in the location I had previously navigated to.</p> <p>Reported as a bug as all other dialogs I tested remembered where they were previously navigated to, so I'm assuming that's the desired behaviour.</p> <p>1.8.0.1 on Windows XP.</p>
