

QGIS Application - Bug report #6212

Incorrect sorting of uppercase and accented words in the "Style -> Categorized" dialog

2012-08-16 06:47 AM - Jonathan Moules

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	GUI	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution: fixed/implemented
Crashes QGIS or corrupts data:		Copied to github as #: 15525
Description		
<p>In Styling -&gt; Categorized</p> <p>I have labels such as:</p> <p>alpha</p> <p>Beta</p> <p>charlie</p> <p>Delta</p> <p>If I set it to sort, I would expect it to sort in that order ascending. However QGIS seems to be case sensitive when sorting, so I get:</p> <p>alpha</p> <p>charlie</p> <p>Beta</p> <p>Delta</p> <p>Aren't sorts normally case insensitive? That's certainly what I'd expect as a regular user.</p>		

History

- #1 - 2012-08-16 10:17 AM - Giovanni Manghi
- Target version set to Version 2.0.0
  - Subject changed from Case sensitive sort to Incorrect sorting of uppercase and accented words in the "Style -> Categorized" dialog
  - Category set to GUI

I can confirm this issue also with words that do begin with accented letters like "É", "Á", etc.

- #2 - 2014-01-25 02:59 AM - Martin Dobias
- File categorized-sorting.png added

Actually I cannot confirm in master - for me the sorting is case insensitive and respects accented characters (see attached screenshot). Or do you have a different dialog in your mind?

- #3 - 2014-01-25 09:00 AM - Giovanni Manghi
- Status changed from Open to Closed
  - Resolution set to fixed/implemented

Reopen if necessary.

#4 - 2014-01-27 04:41 AM - Jonathan Moules

Confirmed as fixed.
