| <b>Crashes QGIS or corrupts data:</b>  | Yes                      | <b>Copied to github as #:</b> 15558 |
| <b>Description</b>   |                          |                                     |
| <p>The WFS 1.0.0 standard allows for tables without geometry attributes. Current QGIS crashes when added a WFS feature type does not contain a geometry attribute.</p> <p>This patch supports non-spatial (tables) tables in QGIS.</p> <p>See <a href="http://data.linz.govt.nz/table/1208-asp-street/webservices">http://data.linz.govt.nz/table/1208-asp-street/webservices</a> for example WFS source (note you need to login and create API key first).</p> <p>See <a href="http://github.com/qgis/Quantum-GIS/pull/216">http://github.com/qgis/Quantum-GIS/pull/216</a> for patch</p> |                          |                                     |

History

#1 - 2012-09-04 12:07 PM - Paolo Cavallini

- Target version set to Version 2.0.0

#2 - 2012-10-05 05:59 AM - Alexander Bruy

- Resolution set to fixed

- Status changed from Open to Closed

Added in commit:aedddc22b1
