

QGIS Application - Bug report #6251

Support plain tables from WFS sources

2012-08-26 10:32 PM - Jeremy Palmer

| | |
|--|-------------------------------------|
| Status: Closed | |
| Priority: High | |
| Assignee: Marco Hugentobler | |
| Category: Web Services clients/WFS | |
| Affected QGIS version: master | Regression?: No |
| Operating System: all | Easy fix?: No |
| Pull Request or Patch Applied: Yes | Resolution: fixed |
| Crashes QGIS or corrupts data: Yes | Copied to github as #: 15558 |
| Description | |
| <p>The WFS 1.0.0 standard allows for tables without geometry attributes. Current QGIS crashes when added a WFS feature type does not contain a geometry attribute.</p> <p>This patch supports non-spatial (tables) tables in QGIS.</p> <p>See http://data.linz.govt.nz/table/1208-asp-street/webservices for example WFS source (note you need to login and create API key first).</p> <p>See http://github.com/qgis/Quantum-GIS/pull/216 for patch</p> | |

History

#1 - 2012-09-04 12:07 PM - Paolo Cavallini

- Target version set to Version 2.0.0

#2 - 2012-10-05 05:59 AM - Alexander Bruy

- Resolution set to fixed

- Status changed from Open to Closed

Added in commit:aedddc22b1
