Crashes QGIS or corrupts data:		**Copied to github as #:**	15575

Description

Hi.

I see the actul qgis-dev version for windows has a poor quality in the raster from a wms.

I compare the quality between the qgis 1.8 and the qgis-dev (r 1720575)

I attach two image from qgis-dev and from qgis 1.8.

I try to setting some value (no strech) on option menu but without any result.

History

#1 - 2012-08-28 02:38 PM - Giovanni Manghi

- Target version set to Version 2.0.0

- Priority changed from Normal to Severe/Regression

#2 - 2012-10-05 08:21 AM - Giovanni Manghi

I also see a general decrease of quality of wms layers in master.

#3 - 2012-12-29 01:16 AM - aperi2007 -

- Resolution set to fixed

I see this bug was solved.

Now the quality of wms maps on qgis-dev is comparable to qgis-1.8.

I guess this ticket is closable.
