

QGIS Application - Bug report #6276

Raster Layer Properties for WMS only partly work

2012-08-29 04:16 AM - Andreas Neumann

Status: Closed	
Priority: Severe/Regression	
Assignee: Radim Blazek	
Category: Rasters	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution:
Crashes QGIS or corrupts data:	Copied to github as #: 15578
Description	
QGIS crashes when accepting Layer Properties of a WMS layer	
Steps to reproduce:	
<ul style="list-style-type: none">- load a WMS layer in QGIS- Open layer properties- Press Accept or OK in the dialogue	
QGIS crashes

Radim, thank you for having a look at this problem!

Andreas

#3 - 2012-08-29 04:58 AM - Jürgen Fischer

crash fixed in commit:b3a6172

The original origin probably is:

```
src\core\
```

```
aster\qgsrasterpipe.cpp(65) : (QgsRasterPipe::connect) cannot connect class QgsMultiBandColorRenderer to class QgsWmsProvider
```

also note that render caching sometimes interferes with WMS rendering (IIRC I only noticed it so far, when accessing QGIS mapserver from QGIS; not sure if there already is a ticket for that).

#4 - 2012-08-29 09:18 AM - Jürgen Fischer

- Crashes QGIS or corrupts data changed from Yes to No

#5 - 2012-08-31 12:47 AM - Andreas Neumann

With the recent builds QGIS does not crash any more.

But e.g. the Global Transparency Setting (slider) is just ignored (nothing happens).

#6 - 2012-08-31 01:53 AM - Giovanni Manghi

- Status changed from Open to Feedback

No.

#8 - 2012-08-31 02:12 AM - Jürgen Fischer

- Subject changed from QGIS crashes when accepting Layer Properties of a WMS layer to Raster Layer Properties for WMS only partly work

#9 - 2012-09-03 09:22 AM - Radim Blazek

It should be fixed in commit:e5389212

Please verify and close.
