**Description**

Qgis Server filters are quite basic in this moment. Comparison should be available case insensitive too, and a "LIKE" comparision operator would be very important.

This feature request hasn't had further discussions.

Do you see any counterindication in implementing a LIKE/ILIKE filter?

**#3 - 2014-02-24 05:26 AM - Giovanni Allegri**

LIKE has been added. Why don't we add ILIKE too?

**#4 - 2014-02-24 05:28 AM - Marco Hugentobler**

No problem to add ILIKE as well.
