QGIS Application - Bug report #6323
"marker on every vertex" misses vertices

2012-09-09 01:20 PM - Sandro Santilli

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Symbology			
Affected QGIS version:	1.8.0		**Regression?:**	No
Operating System:			**Easy fix?:**	No
Pull Request or Patch supplied:	No		**Resolution:**	fixed
Crashes QGIS or corrupts data:	No		**Copied to github as #:**	15610

Description

The image shows rendering with a "marker on every vertex" style of this geometry:

    LINESTRING(1 10,2 1,2 1,3 1,14 1,15 10)

http://strk.keybit.net/tmp/bogus_style.png

It is clearly missing a vertex on the bottom-left (2 1, I guess).

The point is duplicated, in case it matters.

History

#1 - 2013-08-12 12:39 PM - Sandro Santilli

I confirm the bug with 1.8.0-Lisboa.

It's fixed in 1.9.0-alpha as of Aug, 21 2013 (58477fe)

There's no 1.8.1 target to set this to.

#2 - 2013-08-13 02:01 AM - Giovanni Manghi

- Resolution set to fixed

- Status changed from Open to Closed
