

QGIS Application - Bug report #6333

Autocompletion don't work is some cases in new Python console

2012-09-11 10:04 AM - Alexander Bruy

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Python plugins	
Affected QGIS version:	master	Regression?: No
Operating System:	all	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 15616
Description		
<p>Seems autocompletion don't work for some "complex" cases. For example, when I try to enter next code</p> <pre>I = qgis.utils.iface.mapCanvas().currentLayer()</pre> <p>autocompletion works only for mapCanvas() and after this stops working (e.g. I can't get hint for currentLayer())</p>

I don't think this is possible with the current console implementation.
