QGIS Application - Bug report #65
QGIS assert error when nkids theme used due to missing icons

2006-04-07 06:31 AM - anonymous -

Status:	Closed		
Priority:	Low		
Assignee:	Tim Sutton		
Category:	Build/Install		
Affected QGIS version:		**Regression?:**	No
Operating System:	Debian	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	fixed
Crashes QGIS or corrupts data:		**Copied to github as #:**	10124

Description

When using nkids theme with 0.8 many of the icons have not been created / named properly yet. The nkids theme needs to be updated before we can release. Example of the error :

When i run qgis on my computer i have this message in a terminal

qgis: qgisapp.cpp:4593 void [[QgisApp]]::projectionsEnabled(bool):
l'assertion "!myProjPixmap.isnull() " a échoué.
Abandon

History

#1 - 2006-05-09 06:12 PM - Gary Sherman

- Resolution set to fixed

- Status changed from Open to Closed

Added missing projection icons from default theme to prevent crash (revision commit:fff1b7a2 (SVN r5434)).

#2 - 2009-08-22 12:46 AM - Anonymous

Milestone Version 0.8 deleted
