QGIS Application - Bug report #657
Unable to export mapserver file

2007-03-14 07:01 PM - jasone-rogers-com -

Status:	Closed			
Priority:	Low			
Assignee:	nobody -			
Category:				
Affected QGIS version:		**Regression?:**	No	
Operating System:	Debian	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	fixed	
Crashes QGIS or corrupts data:		**Copied to github as #:**	10716	

Description

Trying to export my QGIS project as a Mapserver file.
File, Export to Mapserver

Case 1)
Nothing happens. No files are written.

Case 2)
Export dialog box comes up, enter data, click okay.
A brief hourglass, then an error "msexport.exe has caused an error. This progam must now close. Send error report?

Updated to Python 2.5

Is this on Debian? Sounds like a Windows box to me...

#2 - 2008-03-19 02:53 AM - leolami -

I think the bug is fixed in QGIS 0.9.2
Can you test it and close it if all is rigth, close it?
Regards Leonardo

- *Resolution set to fixed*
- *Status changed from Open to Closed*

I close it. If you think it is still valid reopen it, please.

#4 - 2009-08-22 12:54 AM - Anonymous

Milestone Version 0.9.2 deleted
