QGIS Application - Bug report #658
GRASS modules don't work properly if QGIS is not started from GRASS shell

2007-03-14 10:14 PM - Gary Sherman

Status:	Closed		
Priority:	Low		
Assignee:	Gary Sherman		
Category:	GRASS		
Affected QGIS version:		**Regression?:**	No
Operating System:	Debian	**Easy fix?:**	No
Pull Request or Patch supplied:		**Resolution:**	invalid
Crashes QGIS or corrupts data:		**Copied to github as #:**	10717

Description

GRASS modules don't work properly if QGIS is not started from GRASS shell -- key errors are returned and parts of the GUI module are missing.

Workaround is to run QGIS from the GRASS Shell

History

#1 - 2007-03-16 06:21 PM - Gary Sherman

- Resolution set to invalid

- Status changed from Open to Closed

Apparently a build problem.

#2 - 2009-08-22 12:51 AM - Anonymous

Milestone Version 0.8.1 deleted
