

QGIS Application - Bug report #6585

 does not work in html map tips?

2012-10-30 01:18 AM - Giovanni Manghi

Status:	Closed	
Priority:	Normal	
Assignee:	Nathan Woodrow	
Category:		
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 15776
Description		
Just tested the tag IMG in html map tips, both using an hardcoded url or an attribute, but the image does not show. Tested on master/linux. Anyone confirms?

like

```
<h1>[% "entidade" ]</h1>
<p>[ "area_ha" %]</p>

```

I've tried Giovanni's code and the image also doesn't show. However it works on local images:
With the code (for the same image):

it works for the first but not for the second.

- Status changed from Open to Closed

Closed for now as Qt richtext, a subset of HTML which is used for the map tips, doesn't support non-local images.
