<b>Pull Request or Patch supplied:</b> No	<b>Resolution:</b> end of life
<b>Crashes QGIS or corrupts data:</b> No	<b>Copied to github as #:</b> 15785

### Description

I just noticed the labelling engine is misplacing a label (i.e. not following line) when using the curved placement alongside a circular line. See attached screenshot.

To reproduce:

1. In a new project, load the attached shapefile
2. Enable labelling with this conditional query "highway" IN ('primary', 'secondary', 'tertiary') \*
3. Set project's projection to EPSG:3148 (UTM Indian 1960 48N)
4. Set scale to 1:15108
5. Zoom in the region shown in the screenshot.

### History

#### #1 - 2017-05-01 01:09 AM - Giovanni Manghi

- Easy fix? set to No
- Regression? set to No

#### #2 - 2019-03-09 04:04 PM - Giovanni Manghi

- Resolution set to end of life
- Status changed from Open to Closed

### End of life notice: QGIS 2.18 LTR
