more infos are needed, as this does not happen on a standard installation.

#2 - 2012-12-25 06:53 AM - Giovanni Manghi

if you are using osgeo4w this is probably caused by the presence of the gdal-ecw connector and no more compatible ecw dlls from erdas.

Please try a clean installation or remove the gdal-ecw connector.

#3 - 2012-12-26 10:58 AM - Alessandro Ciali

The problem disappeared with version 54e50e7 (installed by OSGeo4w this morning). ECW works properly. The ticket can be closed for me.

Greetings
