### Description

The plugin manager checkboxes don't render properly - the right border of the checkboxes is invisible.

This happens in linux (ubuntu 12.04), using both cinnamon and mate desktops. I haven't tried yet under kde.

Affected versions are 1.8 and latest master. Attaching a screenshot.

Not sure if category should be GUI or Plugins, nor who to assign this to. Seems that the icons were added by wonder.

### History

**#1 - 2013-06-11 04:51 PM - Borys Jurgiel**

*- Resolution set to fixed*

*- Status changed from Open to Closed*

it must be fixed in the new manager with QStandardItems.

**#2 - 2013-06-13 05:00 AM - Etienne Tourigny**

yes it looks fine.
