

QGIS Application - Bug report #663

Search Feature

2007-03-16 06:51 AM - Redmine Admin

Status: Closed	
Priority: Low	
Assignee: nobody -	
Category: Data Provider	
Affected QGIS version:	Regression?: No
Operating System: Debian	Easy fix?: No
Pull Request or Patch supplied:	Resolution: invalid
Crashes QGIS or corrupts data:	Copied to github as #: 10722
Description	
<p>I have found the search feature that allows the user to find records in the table view but is there any way in which you can find and item on the map window based on information in the table (ie the point ID)?</p>	
<p>Thank you,</p>	
<p>Rich</p>	

History
