

QGIS Application - Feature request #6683

Add duplication option to embed layers/groups dialog

2012-11-13 11:56 AM - Larry Shaffer

Status:	Open	Resolution: Copied to github as #: 15851
Priority:	Normal	
Assignee:	Larry Shaffer	
Category:	Map Legend	
Pull Request or Patch supplied:	Yes	
Easy fix?:	No	
Description		
<p>As an option to embedding a layer/group, also offer a duplicate function in the dialog. This would be similar to embedding the layer/group, then duplicating it in the legend, except it could be done immediately, and possibly without any canvas refresh.</p> <p>Currently, #6682 would need to be implemented before such a duplicate function in the dialog would work properly. It would then offer the user a fairly complete means of duplicating layers/groups across projects.</p> <p>I am assigning this to myself. If some time passes and I do not show any progress, please re-assign.</p>

Hi Larry,

do you think having time for this for 2.0? Let us know some of us are really interested! régis

#2 - 2014-06-28 07:43 AM - Jürgen Fischer

- Target version changed from Version 2.0.0 to Future Release - Lower Priority

#3 - 2017-05-01 12:48 AM - Giovanni Manghi

- Easy fix? set to No
