QGIS Application - Feature request #6706

"View feature form" should be available for the "run feature action tool"

Easy fix?:	No	**Copied to github as #:**	15871

Description

In the "identify results" window, "view feature form" is listed under the possible actions.

"View feature form" is *not* an option for the "run feature action tool" (the tool next to the identify tool in the toolbar). To be consistent it should be.

It, would be a very useful feature and IMHO it should be the default action of run feature action tool

#2 - 2017-05-01 12:48 AM - Giovanni Manghi

- Easy fix? set to No

#3 - 2017-05-02 03:29 PM - Regis Haubourg

- Description updated

Agreed, currently it's doable using the OpenFeatureForm python API call but is full of caveats
