

QGIS Application - Bug report #684

Classification Field empty for delimited text layers

2007-03-26 04:12 AM - anonymous -

Status: Closed	
Priority: Low	
Assignee: nobody -	
Category: Data Provider	
Affected QGIS version:	Regression?: No
Operating System: All	Easy fix?: No
Pull Request or Patch supplied:	Resolution: fixed
Crashes QGIS or corrupts data:	Copied to github as #: 10743
Description	
<p>Load a .csv file using the delimited text plugin, then try and colour it using Graduated Symbol or Continuous Color in the Layer Properties dialog - the Classification Field is empty.</p> <p>Interesting - the classification field shows attribute names for the 'Unique Value' type so its doing something right and something wrong....</p> <p>Maybe this is related to the attribute changes made recently and the use of QVariant types...</p>	

History

#1 - 2007-03-26 04:45 AM - anonymous -

Ah ha, continuous colour and graduated symbol dialogs only list numeric fields, but the delimited text provider doesn't report fields as numeric....

#2 - 2007-04-17 12:53 PM - Martin Dobias

- Resolution set to fixed

- Status changed from Open to Closed

Fixed in commit:e08418b0 (SVN r6894).

#3 - 2009-08-22 12:45 AM - Anonymous
