

QGIS Application - Bug report #687

Attribute Edit window disappears off top of screen

2007-03-27 04:41 AM - stuarteve-lparchaeology-com -

Status: Closed	
Priority: Low	
Assignee: nobody -	
Category: Vectors	
Affected QGIS version:	Regression?: No
Operating System: Windows	Easy fix?: No
Pull Request or Patch supplied:	Resolution: duplicate
Crashes QGIS or corrupts data:	Copied to github as #: 10746

Description

When using the vector editing tools, after a right-click the edit attribute window appears. It was working fine - but kept on creeping up the main window after each right click. Eventually it disappeared off the top of the window and now I cannot get it back. This means that I cannot now use the vector editing tools - as I cannot enter any attributes in.
