

QGIS Application - Bug report #6896

Lack of older versions available

2012-12-19 02:44 AM - Jonathan Moules

Status: Closed	
Priority: Normal	
Assignee:	
Category:	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied:	Resolution:
Crashes QGIS or corrupts data:	Copied to github as #: 16021

Description

I can't find anywhere better to report this, but: <https://issues.qgis.org/projects/quantum-gis/wiki/Download#6-Older-releases> says: "Most of our older releases can be obtained here: <http://download.osgeo.org/qgis/>"

Except there are very few versions there, and none of them are recent.

History

#1 - 2012-12-19 02:50 AM - Jürgen Fischer

- Status changed from Open to Closed

There we only have "older" releases. More recent old releases are next to the current release in <http://qgis.org/downloads/>

Thanks, I see the webpage has been updated to reflect this (I'm not actually interested in the old releases myself ;-).
