

QGIS Application - Feature request #6959

Merge attributes dialog should remember options for fields

2013-01-07 09:01 PM - Nathan Woodrow

Status:	Open	Resolution: Copied to github as #: 16069
Priority:	Normal	
Assignee:		
Category:	GUI	
Pull Request or Patch supplied:	Yes	
Easy fix?:	No	
Description		
It would be handy if the merge attributes dialog remembered the state the user sets each fields between dialog opens. This would allow the user to set it to always sum a field, concat a different, and skip another.
