<b>Description</b>	
When using georeferencer with Helmert, QGIS crash with the following error when saving the modified raster; Memory could not be read, Instruction 0x3a06aa78, address 0x00000070	

#### History

#1 - 2006-09-10 02:30 AM - Gavin Macaulay -

- Resolution set to fixed

- Status changed from Open to Closed

This is fixed, along with some other georeference improvements, in SVN commit:68eefe01 (SVN r5757). The upcoming (next day or so) preview release of 0.8 will include this fix.
