

QGIS Application - Bug report #7020

PostGIS provider not using defined port

2013-01-21 06:46 AM - Gavin Fleming

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Data Provider	
Affected QGIS version:	1.8.0	Regression?: No
Operating System:	ubuntu	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: fixed
Crashes QGIS or corrupts data:	No	Copied to github as #: 16114
Description		
<p>QGIS 1.8.0-1~quantal3 from ubuntuGIS-unstable</p> <p>PostGIS data provider appears to not be using any port in its connection string.</p> <p>I have a database with the same name in 8.4 on port 5432 and in 9.1 on 5433. When I connected to my 9.1 database my 8.4 tables came up. The connection string in each layer's properties had no port defined so it is obviously defaulting to 5432.</p>		

History

- #1 - 2013-01-21 06:56 AM - Jürgen Fischer
- Affected QGIS version changed from master to 1.8.0
 - Resolution set to fixed

already fixed in commit:fb51c27862

- #2 - 2013-01-21 07:06 AM - Giovanni Manghi
- Status changed from Open to Closed
