

QGIS Application - Bug report #7076

No toolbar icon for HTML Annotation

2013-01-29 06:33 PM - Mathieu Pellerin - nIRV

Status:	Closed	
Priority:	Low	
Assignee:		
Category:	GUI	
Affected QGIS version:	master	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 16160
Description		
<p>HTML Annotation currently lacks a dedicated toolbar icon, instead uses the Form Annotation icon. No big deal but can lead to poor user experience.</p> <p>Also, when opening the property window of an HTML Annotation, the window title bar says "form annotation". Again, no big deal. :)</p> <p>Filing this issue as per IRC discussion with NathanW.</p>
