

QGIS Application - Bug report #7156

Vector geometry simplification works only if project CRS matches layer CRS

2013-02-15 01:09 AM - marish -

Status: Closed	
Priority: Normal	
Assignee:	
Category: Vectors	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: end of life
Crashes QGIS or corrupts data: No	Copied to github as #: 16214
Description	
Steps to reproduce: <ul style="list-style-type: none">- make a shapefile in one CRS- digitize a line- change project CRS and enable OTFR- try to use "simplify" tool	
It's not possible to select a line and start geometry simplification. Changing project CRS to match layer CRS fixes issue.
