

QGIS Application - Bug report #7167

Scale box input doesn't get converted to 1:xxxx

2013-02-16 11:45 AM - Patrick Dunford

Status:	Closed	
Priority:	Low	
Assignee:		
Category:	GUI	
Affected QGIS version:	master	Regression?: No
Operating System:	Windows	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	No	Copied to github as #: 16220
Description		
<p>In version 1.8 when you type a scale input into the scale box it automatically converts to 1:xxxx (the number you typed in) 1.9 does not do this so you end up with a scale of 2000:1 or whatever.</p> <p>Is this a bug or a feature. If latter is there any way a setting will control this behaviour.</p>		

History

#1 - 2013-02-16 11:48 AM - Giovanni Manghi

- Priority changed from Normal to Severe/Regression
- Target version set to Version 2.0.0

I would say that is a bug and a regression.

#2 - 2013-02-19 11:48 PM - Magnus Homann

- Priority changed from Severe/Regression to Low

I think this is the right behaviour. If you want 1:2000, it's easy to write. If you want 2000:1 it is also easu to write. If you enter 2000, that is the same as 2000:1.

#3 - 2013-02-20 07:49 AM - Amit Kulkarni

Pull request <https://github.com/qgis/Quantum-GIS/pull/430> fixes this for all cases. 1:2000, 2000, 2000:1

#4 - 2013-02-20 11:20 PM - Magnus Homann

Not sure what you mean, but scales "1234" and "1:1234" is not the same to me. Neither is "0.001" and "1000".

#5 - 2013-03-01 03:16 AM - Alexander Bruy

And breaks test. Please update unit test accordingly

**#6 - 2014-06-21 01:31 PM - Jürgen Fischer**

- *Category set to GUI*

**#7 - 2014-06-28 07:43 AM - Jürgen Fischer**

- *Target version changed from Version 2.0.0 to Future Release - Lower Priority*

**#8 - 2015-07-12 05:07 PM - Nyal Dawson**

- *Resolution set to fixed/implemented*

- *Status changed from Open to Closed*

Seems fixed in master. Please reopen if necessary.
