

QGIS Application - Bug report #7253

save problem on units DegreesMinutesSeconds

2013-02-28 04:06 AM - wayne wang

Status: Closed	
Priority: Normal	
Assignee:	
Category: Project Loading/Saving	
Affected QGIS version: 1.8.0	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied: Yes	Resolution: fixed/implemented
Crashes QGIS or corrupts data: No	Copied to github as #: 16274
Description	
when set "Layer units" of "Project properties" to "Degrees, Minutes, Seconds" and save the project , the "unit" setting of the project file changes to "unknown".	
psw : it's because the methods "writeXml()" and "readXml()" in "src/core/qgsmrenderer.cpp" lack operation for QGis::DegreesMinutesSeconds.

to raise the chance to see this patch reviewed and applied it would be better to submit it as pull request on github

<https://github.com/qgis/Quantum-GIS/pulls>

#4 - 2014-06-23 03:09 AM - Giovanni Manghi

- Resolution set to fixed/implemented

- Status changed from Feedback to Closed

does not happen on qgis master, so it should have been fixed along the way since qgis 1.8
