

QGIS Application - Bug report #7256

Calculation of graduated symbology breaks is broken in master

2013-02-28 06:09 PM - Nyal Dawson

Status: Closed	
Priority: Normal	
Assignee:	
Category: Symbology	
Affected QGIS version: master	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch Applied: Yes	Resolution:
Crashes QGIS or corrupts data: No	Copied to github as #: 16277

Description

Currently the calculation of Standard Deviation, Quantile and Natural Breaks is broken in master (probably since the introduction of the new vector API).

This is caused by qgsgraduatedsymbolrendererv2.cpp line 804, where

```
setSubsetOfAttributes( QgsAttributeList() )
```

should be

```
setSubsetOfAttributes( lst )
```
