QGIS Application - Bug report #7285
qml ignore provide ui-file setting

2013-03-06 08:30 AM - Luca Lanteri

Status:	Closed			
Priority:	Severe/Regression			
Assignee:				
Category:	Map Legend			
Affected QGIS version:	master	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**		
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	16294	

Description

On qgis 1.9 when the "provide ui-file" option is saved in qml, at the next qml loading the option is ignored.

History

#1 - 2013-03-06 11:29 AM - Giovanni Manghi

- Status changed from Open to Feedback

is this a regression since 1.8?

#2 - 2013-03-06 12:22 PM - Luca Lanteri

This feature didn't exist in Qgis 1.8. In master users can now choose from "autogenerate", drag'n'drop, or provide an ui-file, but this option is ignored. On the other hand, the ui-form path is stored correctly.

#3 - 2013-03-06 11:36 PM - Giovanni Manghi

- Operating System deleted (XP, linux)

- Priority changed from Normal to Severe/Regression

Ok, but if is a new feature not working (as expected or supposed) it is still a blocker.

#4 - 2013-05-13 06:03 AM - Matthias Kuhn

Fixed in changeset commit:"83cb282ea15c21583bd01cb2360d99a40da2bfee".
